I Know a Scientist  
by Rhonda López

I know a scientist,  
A fifth-grade scientist.  
A secret scientist,  
Who never really talked.

He reads lots of science books,  
He forms logical predictions,  
He performs many experiments,  
And he explains relative density.

I know a scientist,  
A very eager scientist.  
An inspiring scientist,  
His name is LUIS!
