Rainforest Life Sound Off!  
by Denise V. Balderas

We don't know but we've been told,  
The giant rafflesia smells like mold.  
Gibbons leaping softly all around,  
Hummingbird's wings singing a fast, sweet sound.

Sound Off ---Organisms,  
Sound Off --- Humidity,  
Sound Off ---slow, fast, instrumental, Rainforest Life!

The howler monkey is heard quite clear,  
Stinky fruit like the durian fills the air.  
Bromeliads, pitcher plants, shaving brush tree, too,  
Offer different needs to the rainforest-that is true.

Sound off – arapaima!  
Sound off –quetzal birds!  
Sound off – insects, predators, scavengers, Rainforest Life!
