Variables (snap, snap)
Variables (snap, snap)
Variables in my experiment
Variables (snap, snap)

Let's look at independent
I chose before the experiment
The one I will manipulate
It will be my cause

Variables (snap, snap)
Variables (snap, snap)
Variables in my experiment
Variables (snap, snap)

Now look at the dependent
It'll change after the experiment
It's responsive and I can measure it
It is my effect

Variables (snap, snap)
Variables (snap, snap)
Variables in my experiment
Variables (snap, snap)

The constants are all the factors
That remain the same throughout
So you will never doubt
Our experiment is fair
