

DLeNM Job Posting

Title of Position

Instructor of Education ESL/ELL preferred
Bilingual/Biliteracy Education -Fall 2021

Description

Successful candidates should be committed to excellence and innovation in undergraduate/graduate teaching, working closely with traditional and non-traditional students in a small college environment with a commitment to student success, and active engagement in scholarly activities. Opportunities to teach graduate courses and courses in the Liberal Arts Core are available. For more information:
<http://grandview.hrmdirect.com/employment/job-opening.php?req=1595329&&&nohd#job>

Qualifications

Earned doctorate in Education field or a strongly related field with an academic specialization in ESL from an accredited institution. Doctoral candidates are encouraged to apply.

Candidates must have previous teaching experience in a K-12 ELL setting.

Commitment to culturally competent preparation of teacher candidates to work successfully with culturally and linguistically diverse student populations.

Experience and passion for mentoring, recruitment and retention, and collaboration with local schools and education stakeholders.

Preferred Qualifications:

Candidates are preferred to have at least four years of successful teaching experience at the K-12 level.

For the purposes of the grant, candidates should have the ability to work with local school districts and coordinate family engagement programming for parents of ELL students. It is preferred that candidates have prior experience leading professional development with

teachers or mentoring part-time faculty.

Academic specialization and teaching experience in Bilingual Education. Bilingual and biliterate in Spanish and English with oral and written academic proficiency in both languages.

History of supervising students in the field or mentoring new teachers.

Because of the work with our National Professional Development the candidate must have strong, detail-oriented organizational skills and be able to coordinate and manage a large project. Candidates must demonstrate the potential for scholarship/research with preferred experience in quantitative research design. The grant provides an additional month of support beyond the academic year.

Prior successful teaching at the post-secondary level and supervision experience is desired.
